## SKILLS

**Programming Languages** Python (3.5yr.) | JavaScript (3yr.) | TypeScript (2yr.) | C (2.5yr.) | Swift (2yr.) | Dart (1.5yr.)  
**Frameworks & Technologies** React | React Native | Express | AWS | Redux | GraphQL | SwiftUI | MySQL | Lit  
**Languages** *Native:* Spanish *Advanced:* English

## EDUCATION

### Bachelor in Computer Engineering

 **School of Engineering, National Autonomous University of Mexico**  Aug. 2019 - Ago. 2024 (expected)  Mexico City

- Awarded "Moisés Itzkowich" academic excellence scholarship, granted to 100 students across the country.
- Executive board member of SIAFI (School of engineering Artificial Intelligence student agrupation).
- General Average: 9.34 / GPA: 4.0

### UX/UI Design Bootcamp

 **Coderhouse**  Jun. 2022 - Aug. 2022  Online

- Demonstrated a keen ability to create visually pleasing and user-centric designs, earning a top 10 ranking among peers in the program.
- Acquired practical knowledge in user interface design, emphasizing relevance and usability in design projects and utilized UX principles and design methodologies through research, developing a comprehensive grasp of design processes.

## EXPERIENCE

### Software Engineering Internship

 **Softtek**  Dec. 2023 - Present  Mexico City

- Receiving training in Lit development, a modern and lightweight development library for web and mobile development.
- Receiving training in security policies to ensure the implementation of secure coding practices.

### Software Engineering Internship

 **BRITA Inteligencia Artificial**  Jul. 2023 - Dec. 2023  Mexico City

- Utilized diverse frontend technologies such as React, React Redux, React Native, NextJS, GraphQL, and Firebase to develop responsive interfaces for applications.
- Connected the frontend with API endpoints and headless CMS, resulting in seamless integration and efficient data management.
- Created API endpoints using Flask, FastAPI, NextJS, Postgres, and MySQL, ensuring accuracy through proper unit testing.

### Frontend Engineering Internship

 **Centro de Tecnología e Innovación**  Feb. 2023 - Jul. 2023  Mexico City

- Improved user experience and performance of a internal communication video call application through bug fixes and feature enhancements, resulting in positive user feedback and increased usage, improving communication among employees.
- Utilized expertise on ReactJS to build and maintain the web application, React Native to create and maintain the mobile app and Electron to create and maintain the Desktop app.
- Utilized React Redux for state management and Docker for application containerization, enhancing application scalability and development workflow.

### Fullstack Development Internship

 **Instituto de Investigaciones Jurídicas, UNAM**  Sep. 2021 - Jan. 2023  Mexico City

- Created or redesigned various full-stack sites from scratch using HTML, CSS, JS, Bootstrap, PHP, MySQL, and Drupal CMS which resulted in a improved visitor experience and retention for visit in a 70%.
- Managed and provided technical support for Linux servers, troubleshooting access issues, and monitoring server performance to enhance security, resulting in improved server stability and reduced downtime.

## EXTRACURRICULAR

- Actively engaged in the Notion Campus Leaders program since January 2023, leveraging digital organization skills to students.
- Demonstrated innovation and proficiency by participating in Apple's Swift Student Challenge 2023
- Initiated and organized over four IT-related events tailored to fellow students, fostering a dynamic learning environment and community engagement.
- Participated in Google's 2021 Hash Code competition, collaborating with peers to tackle coding challenges and contribute to successful team outcomes.
